

INVITATION TO AHFE 2018

You are cordially invited to participate in the 9th International Conference on Applied Human Factors and Ergonomics 2018 and the Affiliated Conferences, to be held at Loews Sapphire Falls Resort Universal Studios Orlando Resort™, Florida, USA July 22-26, 2018. All distinguished Conferences are maintained jointly under one management and one registration. The conference objective is to provide an international forum for the dissemination and exchange of scientific information on theoretical, generic, and applied areas of human factors and ergonomics. This will be accomplished through the following six modes of communication: keynote presentation, parallel sessions, demonstration and poster sessions, tutorials, exhibitions, and meetings of special interest groups. The five-day conference will start with tutorials. The tutorials will be held on July 22-23, 2018. Tutorials will be offered at introductory, intermediate, and advanced levels covering the entire spectrum of the conference.

All submitted abstracts will be peer-reviewed by three independent referees from the international program boards. Papers in the theoretical category should deal with models, concepts, and structures; papers in the generic category should present research results of broad applicability; and papers in the applied category should show how the demands of particular application areas shape the way generic research is translated into practical innovation.

PROPOSALS FOR PARTICIPATION

Parallel Presentations. An abstract of about 500 words should be submitted through our website (www.ahfe2018.org) and include a statement of the objective and significance of the proposed presentation, description of methods, and discussion of results.

Tutorials. An abstract of 300 words should state the objective, content, target audience, a bio-sketch about the presenter(s) and A/V requirements. Please submit abstract through the AHFE2018 website.

Poster/Demonstration Sessions. An abstract of 300 words should be submitted through the website and should include the essence of the planned presentation. Equipment needed for demonstration is the responsibility of the author.
